

Helping to Engage and Achieve Long Term Health

Commonwealth of Kentucky
Overview of Kentucky HEALTH

*All information based on Kentucky
HEALTH Waiver proposal.
Information is subject to change.*

Challenges Facing Kentucky

Nationally, Kentucky is ranked close to last in many crucial areas.

- unemployment rate
- poverty rate
- workforce participation rate
- wages are all significantly below the national average.

Over the past decade, the opioid epidemic has wreaked havoc on our families, communities and economy.

- Overdose deaths rate
- Neonatal Abstinence Syndrome rate
- Impacts on daily life and work functions
- Weakening family and social connections and impacting employability
 - Attendance
 - Teamwork
 - Productivity
- Ability to be independent

Kentucky is among the worst nationally in several key population health metrics.

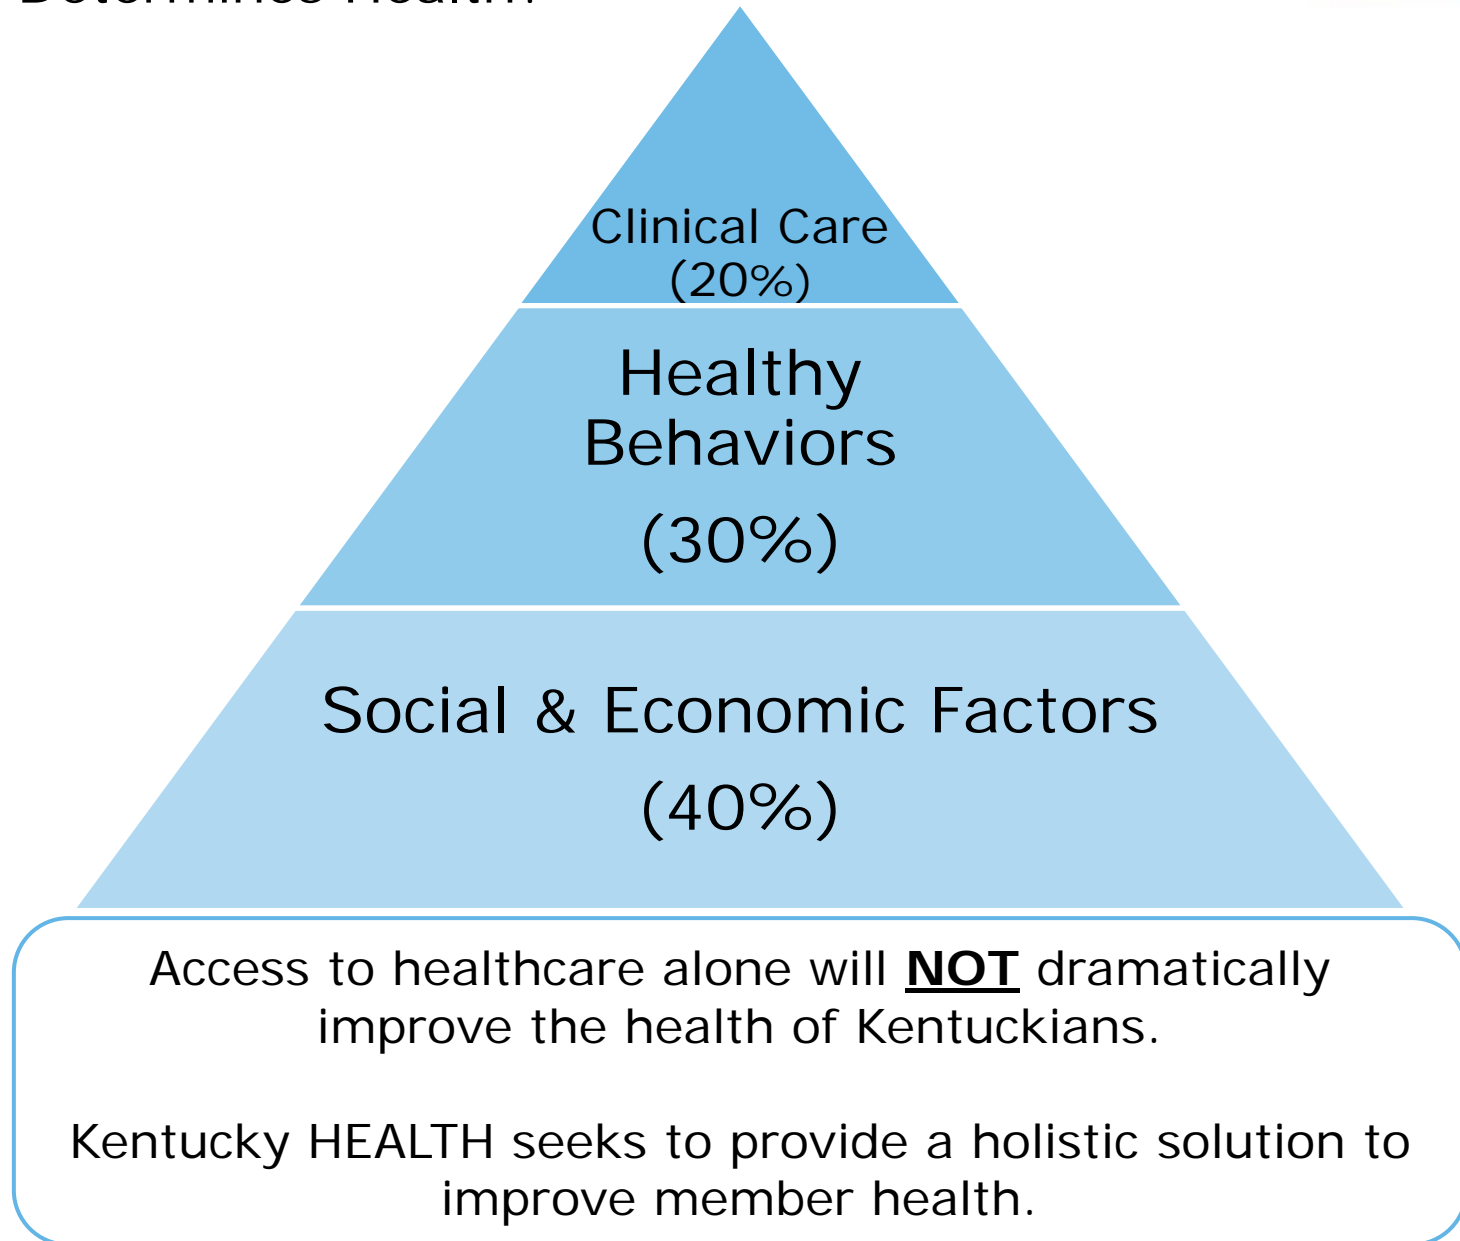

- 1st highest for cancer deaths
- 2nd highest in the nation for smoking.
- 12th highest for overweight and obesity.
- 17th highest in infant death.
- 8 of 13 counties in the nation with largest declines in life expectancy since the 1980s are in Kentucky.

Unsustainable Growth

- **High poverty & high Medicaid enrollment**
 - Workforce participation rate is 59.4% (45th in the nation)
 - 19% of Kentuckians live in poverty
 - 47th in the nation for median household income
 - **Nearly 1/3 of total state population is enrolled in Medicaid**
- **Kentucky has poor health outcomes despite high spending**
- **Ranks 1st highest in nation for MCO profits**
- **No long term financing plan**
 - Kentucky is projected to spend approximately **\$1.2 billion** over the next five years on expanded Medicaid benefits (SFY 2017-2021)

The cost growth in Medicaid expansion threatens funding for traditional Medicaid coverage for the aged, blind, disabled, pregnant women, & children.

What Determines Health?

Note: The remaining 10% accounts for miscellaneous factors.

Kentucky HEALTH Benefits

Kentucky HEALTH Vision
Kentucky HEALTH aims to improve lives and re-envision public assistance as a temporary safety net, not a long-term plan. The program aims to improve health by:

Kentucky HEALTH Benefits
